Executive Board

President: Paraskevi (Evi) Giannakakou, Ph.D – Weill Cornell Medical College, USA

Immediate past president: Emmanouil Dermitzakis, PhD – University of Geneva, Switzerland

Vice president: Steve Boyages, PhD, FRACP, FAFPHM, DDU – University of Sydney, Australia

Vice president: Elias Iliadis, MD, FACC, FSCAI, RPVI – Cooper Medical School of Rowan University, USA

Secretary: Effrossyni Gkrania-Klotsas, MD, MPH, FRCP, PhD – University of Cambridge, UK

Deputy Secretary: Athanasios Mantalaris, PhD, FAIMBE - Imperial College London, UK

Treasurer: Alex C. Spyropoulos, MD, FACP, FCCP, FRCPC – Hofstra, North Shore/LIJ School of Medicine, USA

Advisory Board

George D. Dangas, M.D., Ph.D
Mount Sinai School of Medicine,
USA (*Chairman*)

**George Louis Bakris, M.D., Hon.
D., F.A.H.A, F.A.S.N**
University of Chicago Pritzker
School of Medicine, USA

Argiris Efstratiadis, M.D., Ph.D
Biomedical Research
Foundation, Academy of
Athens, Greece

Fotis C. Kafatos, PhD, FoMeRS
Imperial College, London, UK

**Theodoros Mountokalakis,
M.D., Ph.D.**
University of Athens, Greece

Ari Patrinos, Ph.D
Synthetic Genomics, Inc, USA

**George Paxinos, Ph.D., AO FAA
FASSA**
Prince of Wales Medical
Research Institute & University
of New South Wales, Australia

P. Roy Vagelos, M.D.
Regeneron Pharma. Inc. USA

Secretary
Olga Sarantopoulou, MD

University of Athens, Greece

Paul Kymissis, MD, FAPA
New York Medical College, USA

Nicandros Bouras, M.D., Ph.D.
King's College London, UK

August 27, 2017

REMINDER

September 15 is the deadline for submission of applications for the "Stavros Niarchos Foundation" Research Training Program in Clinical & Experimental Medicine organized by the World Hellenic Biomedical Association.

The World Hellenic Biomedical Association has launched the “**Stavros Niarchos Foundation**” Research Training Program in Clinical & Experimental Medicine to train outstanding medical graduates of Greek universities, who will be applying for residency programs in the United States of America. Funding from the Stavros Niarchos Foundation will support up to 10 program trainees over the two-year pilot phase of the program, as well as their participation in the WHBA summer program. Upon successful establishment, the program will be expanded to the European Union, Canada and Australia.

Medical graduates of Greek universities will be matched with one of the following tracks:

- Clinical track – 3 months clinical training (sub-internship) in a medical center.
- Basic Science track – 12-months basic science training in a laboratory.
- Translational Medicine track - Combined basic science (12 months) and clinical training (3 months) in a laboratory and clinic of similar field. The duration will be 3 months for the clinical training and 1 year for the laboratory training.
