Having finished your basic education and having obtained your qualification as a specialist in pneumology, you will become a top qualified doctor in your field, able to meet any challenge. You can stay and continue with us or look for a job elsewhere, start your own practice as well as follow your medical carrier back at home.
The clinic provides an intensive care unit with 24 beds, an intermediate care unit with 8 beds and a sleep laboratory with a possibility to perform sleep studies simultaneously in 12 patients, as well as a certified lungs cancer enter.
We cooperate intensively with the University of Cologne in the field of lung cancer, sleep medicine, interstitial lung diseases and ALS. Our scientific Institute is linked to the University of Cologne. The “Bethanien Hospital” is equipped with modern advanced devices for the treatment of lung diseases and all our doctors are highly qualified specialists in their field.
Our hospital is situated in the city of Solingen which is truly in the center of West Germany. Living here means, living in a small town with all facilities and amenities desirable for a comfortable and payable life. The vibrating cities of Duesseldorf and Cologne with theatres, opera houses, clubs, restaurants, and big shopping malls are only 30 minutes away. Public transport in all directions guarantees lots of fun in your spare time.
Solingen belongs to the “Bergisch Land”, so you will be surprised to find the country side right at your feet with wonderful hiking trails and historic buildings.
ARE YOU INTERESTED?

To join our team you should hold a medical diploma and be able to speak German (Certificate B2-C1). So do not hesitate to contact us with any questions you may have and start learning German as soon as possible!
